Beast 1333 - Unmerciful Heaven lyrics

[Verse 1]

Report to P.L.O, Israeli repression, here come Mahmoud Abbas
The socio-political wing of the acronym H.a.m.a.s
No cease fire rocket attacks, even the seas is dead
Mana falling down from the sky, they consumed they evil bread
They deep state
Sending in mercenaries, them cheapskates
I never seen so many Fedayeen, laid out like Beefsteak
For pete's sake
Moving in Units all Expeditionaries
With the satellites for reconnaissance on your military
Splack a flusey
With Jericho pistols they packing Uzis
Shoulder launch multipurpose weapons just Like the Movies
Silver arrows
As micro-fragments penetrate the marrow
40 millimeter mortar flying out the barrel
Douglas skyhawks
k**ing civilians on the sidewalk
Irani side talk
Now planes are empty flying cyborgs
National defense authorization for the fiscal year
Developing security related programs out of fear
[Interlude: George Carlin]
We like war, we're a warlike people
We're not very good at anything else anymore
We like war, because we're good at it
And do you know why we're good at it?
Because we get a lot of practice

[Verse 2]

They countering Al-Qaeda, reporting requirements in fact
Wars breaking out in the Field after Legislative acts
There's cluster bombs sidewinder heat seeking, yell Salaam

It's Vietnam, explosions burn you quicker than a cd-rom
There's personnel
Billionaires as well
Platinum plate lapel
As liberation army of china reserve their personnel
Theres revolutions
Public beheadings for domestic nuisance
You cheat on your husband, a stoning be your execution
So barbaric, as they a**emble across Judea
The rocket motor helps the missile penetrate the lair
They logistical
Centuries ago they penned the Biblical
They worshipping the intellect of man revere the Physical

Rabbinicals that Moving in the Dark and dealing Body Parts
That tear apart your chest looking for Heart
With livers set apart
There's mutilations
Hostilities in every nation
Heaven have mercy they ready for d**h and patient
[Interlude: George Carlin]
Can't educate our young people
Can't get healthcare to our old people
But we can bomb the sh** outta your country, alright
That's our new job in the world, bombing brown people
[Verse 3]
It starts with misperceptions
Of the enemy's intentions
Imaginary lines as countries broke the world to sections
Upon reflection
And introspection on the matter
Things are heating up
Quicker than bubbling fritter batter
Populations actions
Oblivious to laws attraction
There's warring factions
With thermonuclear reactions
Counterfeit jihadis
With bullets spraying from a black Ducati
They shooting you from the back of the cab like Peter Gotti
King Abdullah
Judeo-Persian central asian Mullah

Sunni m**m clergy rushing as the pray to Allah
School madra**a
The smoke is pink
They'll blow your calabasas
Long range pakistanis trained to shoot from roofs on Casas
Hella Choppers
United Nation emblem helicopters
National weather service radar images are known as Doppler
Raw as Mongols
With conflict diamonds from the Congo
And where did time go?
I got a full clip for the Five-O
[Interlude: George Carlin]
Oh, you probably noticed, I don't feel about that war
The way we were told we were supposed to feel about that war
The way we were ordered and instructed
By the united states government to feel about that war
Sad to see, most americans just roll over, on command
Not me, I have certain rules I live by, my first rule
I don't believe ANYTHING the government tells me
Nothing!
